Number of choices amongst non−censored individuals that successfully mated

Figure: Raincloud plots showing number of successful matings by birth rank (High, Medium, Low) for females (left panel) and males (right panel).

female — High: n=172, Medium: n=83, Low: n=37

male — High: n=94, Medium: n=48, Low: n=30

X-axis: Number of successful matings

Y-axis: Birth Rank
